I 039;m InTouch Latest

What's New in the?

I'm InTouch enables you to remotely control your PC from any computer or wireless device in no time. Control your PC just as if you were sitting at it to run any program, transfer files, read and send and receive emails, listen to remote audio, and stream video. I'm InTouch is a useful PC remote access

utility that gives you free access to information. Invite guest users to conduct online meetings, presentations, training sessions, or remotely support computers. Add the I'm InTouch SecureKEY USB stick and automatically remotely access your PC just by plugging it into the USB slot of any computer with an Internet connection. **NOTE:** You will need to create an account in order to be able to use this application. 30 PC Fix Pack 2

p P 30 Day Trial Description: Installs core system files and application programs to optimize system performance and prevent common system errors.
